

REWIRE Your Team for **Productivity & Problem-Solving** *Neuroscience-Based Strategies to Drive Business Growth & Innovation*

Productivity isn't just about working harder—it's about working smarter. This keynote dives into neuroscience-driven strategies for maximising efficiency, creative problem-solving, and fostering high-performing teams. Vanessa McCamley helps organisations rewire their approach to productivity using brain-friendly techniques that fuel strategic thinking and innovation.

Duration of Presentation: 60 or 90 minutes

KEY TAKEAWAYS:

- ▶ Apply neuroscience to optimise team productivity and problem-solving.
- ▶ Discover techniques to eliminate distractions and improve deep focus.
- ▶ Build habits that drive sustainable high performance in your team.
- ▶ Foster a culture of innovation with cognitive flexibility and creative thinking.

WHAT TO EXPECT?

- ▶ **A High-Energy, Science-Backed Presentation** –
Vanessa simplifies complex neuroscience and delivers engaging, interactive insights.
- ▶ **Actionable Tools for Immediate Impact** –
Walk away with practical strategies that create real, measurable change.
- ▶ **Interactive & Thought-Provoking Experience** –
Expect real-world applications, reflection exercises, and neuroscience-backed insights.
